SUMMARY

I have an expertise in semantically structured HTML and Responsive CSS.

I am proficient with JavaScript and jQuery.

I code with respect for Separation of Concerns, and keep Progressive Enhancement in mind.

EXPERIENCE

Microsoft

February 2017 – May 2017

Software Intern

- Used C# and XAML to program a kegerator lock with a team of six, using only a raspberry pi, a solenoid valve, and a RFID badge reader
- Designed five application screens and with an understanding of UX design
- Researched hardware and food sanitation guidelines to ensure consumer safety
- Constructed the wiring to connect hardware and application
- [Click Here for a Video of My Experience](#)

Resilient Coders
